

Mylor Yacht Harbour Environmental Policy

Mylor Yacht Harbour recognises that the activities carried out by the company and its customers have the potential to impact the environment. The company is committed to minimising the effect of these activities on both the shore side and the marine environments and as a result, it is the company's policy to:

- Take responsibility for our impact on the environment.
- Meet or exceed all environmental legislation.
- Consider carefully the environmental impact in all aspects of running and developing the business and have a continuous improvement philosophy in environmental performance.
- Minimise all types of waste, recycle where practicable and dispose of all waste materials responsibly.
- Minimise the effect of noise, emissions and visual pollution on Mylor Harbour users and neighbours.
- Use sustainable resources where practicable.
- Keep the site clean, tidy and well maintained.
- Communicate with staff, customers and tenants to raise awareness of environmental issues and to help minimise the impact of their activities.
- Have appropriate plans and resources available to deal effectively with incidents that may adversely impact the environment.
- Ensure appropriate resources are available to meet the requirements of this policy.

A handwritten signature in black ink, appearing to read "Neil Salter".
